Profile

Junior DevOps Engineer with hands-on experience building and automating cloud-native infrastructure through intensive training and real-world projects. Skilled in containerization, CI/CD automation, and cloud provisioning using modern DevOps tools and practices. Certified by the German State (Staatlich geprüfter Informatiker) and trained at Ironhack Germany, I am eager to contribute to production-grade environments and grow within a professional DevOps team.

Technical Skills:

- **Cloud & IaC:** AWS EKS, EC2, S3, Azure, Terraform, Ansible.
- **CI/CD and Monitoring:** GitHub Actions, Prometheus, and Grafana.
- **Containers and Orchestration:** Docker, Kubernetes, and Docker Compose.
- **Scripting & OS:** Bash, Python, Linux, Cron Jobs.
- **Databases:** PostgreSQL, Redis.
- **Methodologies & Tools:** Agile workflow, Git, Jira, Slack.

Projects:

Expensy-Full DevOps Implementation | Oct 2025 - Present

Deployed a complete expense tracking web app to a cloud environment using Kubernetes.

- Automated end-to-end CI/CD pipeline using GitHub Actions for Docker builds and deployments.
- Provisioned and managed AWS EKS cluster with Terraform (VPC, IAM, security groups).
- Implemented comprehensive monitoring with Prometheus/Grafana and Kubernetes secrets management.

The Monitor - Automated Monitoring System | Sep 2025

Implemented a cloud monitoring system to track infrastructure and service performance.

- Deployed full-stack monitoring solution using Prometheus/Grafana with Docker Compose.
- Automated AWS infrastructure provisioning using Terraform and Ansible configuration.
- Configured custom dashboards and alerting for 50+ system performance metrics.

Restauranty App — Microservices Deployment | Apr 2025

Built and deployed a full microservices restaurant platform in Kubernetes.

- Containerized and deployed a multi-service application on Kubernetes using Docker.
- Managed service discovery, load balancing, and rolling updates in Kubernetes.
- Managed environment configurations across dev/staging with Kubernetes ConfigMaps

Real-Time Voting Application on AWS EKS | Mar 2025

Delivered a scalable voting app using microservice architecture.

- Built automated CI/CD pipeline for multi-service deployment via GitHub Actions.
- Managed Kubernetes workloads (deployments, services, ingress) for scalable architecture.
- Configured application monitoring with Prometheus/Grafana dashboards and alerts.

Spring PetClinic - Automated CI/CD Pipeline | Feb 2025

Built and deployed a Java Spring application using a complete CI/CD workflow.

- Implemented complete CI/CD workflow with GitHub Actions for build/test/deploy stages.
- Integrated SonarQube for code quality analysis and automated testing gates.
- Automated artifact packaging and deployment to AWS EC2 instances.

Education & Certifications

- **Staatlich geprüfter Informatiker** | Bezirksregierung Münster, Germany | Jun 2025
German state-recognized professional qualification
- **Higher National Diploma in Computer Science** | Federal Polytechnic Oko, Nigeria | Jun 2017
- **DevOps & Cloud Computing Certification** | Ironhack Germany | Apr 2025
Technologies: AWS, Terraform, Kubernetes, GitHub Actions (400+ hands-on labs)
- **IT Support Professional Certification** | Coursera | Sept 2024

CAREER TRANSITION | 2022-2025

Intensive preparation for DevOps engineering in Germany.

- Completed German state certification as Informatiker (Softwaretechnologie).
- Mastered DevOps stack through 400+ hours of hands-on training and projects.
- Achieved professional certifications in DevOps, cloud, and IT support.

Work Experience:

- **IT Support Specialist | Hardcore Group Nigeria (Remote) | Aug 2020 – Apr 2022**
Provided remote troubleshooting for network and hardware issues via TeamViewer and RDP.
Managed service tickets using Zendesk and ensured SLA compliance.
- **IT Instructor | Govt. Junior Secondary School, Nigeria | Apr 2018 – Jun 2020**
Developed automation scripts using Bash to streamline classroom management tasks.
Taught fundamental IT and operating system skills.
- **IT Support Assistant (Student Internship) | Geophson Multilink Group, Nigeria | Feb 2017 – Mar 2018**
Deployed and maintained antivirus solutions across company systems.
Provided Level 1 technical support and troubleshooting.

Volunteer Experience:

- **UEFA Euro 2024, Germany | Jun - Jul 2024**
Supported operational efficiency for 50,000+ attendees through real-time technical issue resolution.
